MEN'S SIZING SHEET

INSTRUCTIONS--FILL IN ALL THE SPACES. If you have worn a JL Unisuit, fill in the sizes you will find on BOTH THE TOP AND THE BOTTOM portions of the suit.

Note: JL sizing does not correspond to ANY OTHER manufacturer's sizing.

CHANGES TO YOUR ORDER: We understand that rowers come and go during the selection process, and that you may need to make changes to your order while it is in production. We will try and accomodate this reality, but any change may incur extra charges and lengthen the turnaround time. Changes to delivery addresses once the order has been processed are made at the risk of the customer.

		Write garment names in spaces provided (write in vertically please) then check the boxes next to each athlete's name for garment ordered.					office use only	body configuration, body comments	USE TAPE MEASURE FOR ACTUAL MEASUREMENT!!!

These snug-fit shirts are unisex. What size you wear will depend on a combination of upper body breadth and overall weight. Arms are cut quite long, so do not upsize to get full coverage.

Known existing JL Size or Stock Size

- If you/your athletes know your JL size and are happy with it, please fill these columns in on our sizing sheet. In this case, do not fill in any measurements, this will only confuse us, and we'll have to call you to ask which to use!
- Important to notice that top and bottom sizes of unisuits can be different. Be sure and check the size tag for each.
- If it suits your team to hold stock sizes (Small, Medium, Large, for example), our staff can recommend typical size breakdowns based on your team type.
